Moved by: Tim Watkins

Action: Approved agenda as recommended: to correct the spelling of Janie to Jamie

Vote: 4-0 Unanimous

Voting Aye: Tim Watkins, Ryan Udall, Laurellyn Wren, and Jamie Shakespear

Voting Nay: None

Abstaining: None

- V. General Business

1. NDOW Muddy River Update (for possible action)

ACTION: NO ACTION TAKEN

1. Provide a summary of the report/discussion

NDOW proposed protecting the native fish by installing fish barriers to trap and separate the native fish from the destructive nonnative fish. During the cooler months they would like to apply a chemical called Rotenone, extracted from a plant in the bean family which targets gilled animals, in order to exterminate destructive fish that are nonnative. NDOW will need cooperation from the community in order to access certain areas of the river on private land. NDOW would like to make people aware that Rotenone will temporary turn the treated water purple, but has no known harmful side effects to larger animals and people.

- 2. Bureau of Land Management will provide a briefing on Gold Butte, as well as activities in the Moapa area. (for possible action)**

ACTION: NO ACTION TAKEN

1. Provide a summary of the report/discussion

Commissioner Marilyn Kirkpatrick expressed her appreciation for the BLM being willing to reestablish a relationship with the community by working in the communities best interest. BLM expressed their intent on being transparent. BLM gave a briefing on Gold Butte and expressed their inability to enter the Gold Butte for about a 2 year span. Because of this, they have fallen behind on some projects that they now intend to complete. TAB member asks if projects are BLM funded. BLM replies no they are privately funded. Land use operations have been moved up in priority and they will step up their efforts to maintain their roads including Gold Butte. There are 3 actions being taken by BLM 1) Land Management (2) Public Safety and (3) Community Outreach. TAB member asks if this includes them taking care of the wood chippings along the Muddy River. BLM replies they will work hard to take care of that and will give an update later. TAB member asks to discuss the Warm Springs area. BLM states that they intend to work with many partners to restore native vegetation and are working to repair a levy that is broken in 2 places. Short term goal for levy is to shore rip rap. Their long term goal is to create a new levy on the west side of the homeowner's property. Commissioner Marilyn Kirkpatrick gives her word that Clark County will help and work hard towards the long term goal and Assemblyman James Oscarson will also help with the efforts to get volunteers involved. Janice expresses, at some point, the community is going to have to attend a meeting to work on a long term goal.

- 3. Budget request for next Fiscal Year (for possible action)**

ACTION: NO ACTION TAKEN

1. Provide a summary of the report/discussion

Janice said TAB has until October to come up with a list of items that are important to community that they would like to work towards. Janice will follow up with an email with samples from the past.

- VI. Planning & Zoning
None
- VII. Informational Items
1. TAB reports, if any
TAB member mentioned that they are not sure where Sally is on the sign but that it is coming along
2. Liaison reports, if any
Tree on 168 that was blocking drivers line of site has been removed
Janice recognized reelected Board members Jamie and Laurallyn. Applications will be accepted through November 15 if the remaining board members are interested in being reelected. Janice will send them an application.
Three Town Hall meetings to reorganize the School District that Marilyn will be hosting: August 1 Silver Mesa, Northwest Career & Technical Academy August 3rd with Commissioner Larry Brown and another on August 4th north east area located at the Fair Grounds at 6pm
- VIII. Public Comment
Commissioner Marilyn Kirkpatrick mentions that Coyote Springs is in the process of getting infrastructure in place for constant construction. Marilyn will be meeting with Metro and Fire because she doesn't want to start construction until emergency services are in place and wants to have a long range plan of action. Coyote springs wants to recognize the response to the fatality involving a heart attack. Also, this upcoming Town Hall will change with way the Clark County School District operates and the funding will change if the money follows the student. It's important to ask hard questions. Legislatures have a plan in place that will take place in January mid school year. Lastly Marilyn mentions the list of roads to be paved and said that Henrie Rd will be the 1st on the list. Marilyn mentioned that there were about 3 different lists in the past and she has come up with her own list for various reasons. The community has a limited amount of resources and a lot of time is spent on grading roads and it's not cost efficient. Marilyn did a cost allocation on the roads that connect and are travel roads that could be done the fastest. Billy Pulsipher's request was approved. There is a lot of interest in commercial and industrial development and so Marilyn would like to meet with the community in September to have real discussions on where the community sees themselves in the future. There is large scale industrial companies who want to come in near Nellis Air Force Base and the other side of Apex.
- IX. Next Meeting Date

The next regular meeting will be August 30, 2016
- X. Adjournment

The meeting was adjourned at 8:30 p.m.
